|----------------------------|----------------------------|
| Type                       | Action Call                |
| Label                      | Post Transition to Chatter |
| Action Type                | Chatter Post               |
| Action Name                | chatterPost                |
| Flow Transaction Model     | CurrentTransaction         |
| Name Segment               | chatterPost                |
| Version Segment            | 1                          |
| Text (input)               | ChatterMessage             |
| Subject Name Or Id (input) | \$Record.Id                |

### Set\_Contact\_Established\_Message

|      |            |
|------|------------|
| Type | Assignment |
|------|------------|

|           |                                            |
|-----------|--------------------------------------------|
| Label     | Set Contact Established Message            |
| Connector | <a href="#">Post Transition to Chatter</a> |

#### Assignments

| Assign To Reference | Operator | Value                                                                                                                                                                                                                                                                                                  |
|---------------------|----------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| ChatterMessage      | Assign   |   Workflow Transition: Contact established with successor. Case moved to "Awaiting Form" segment. Next: Send pathway selection form. |

#### Set\_Form\_Completed\_Message

|           |                                            |
|-----------|--------------------------------------------|
| Type      | Assignment                                 |
| Label     | Set Form Completed Message                 |
| Connector | <a href="#">Post Transition to Chatter</a> |

#### Assignments

| Assign To Reference | Operator | Value                                                                                                                                                                                                                                                                                                                                        |
|---------------------|----------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| ChatterMessage      | Assign   |   Workflow Transition: Pathway form completed. Pathway: {!\$Record.Pathway_Confirmed__c}. Case moved to "Form Completed" segment. Next: Gather required documentation. |

#### Which\_Transition\_Occurred

|                         |                            |
|-------------------------|----------------------------|
| Type                    | Decision                   |
| Label                   | Which Transition Occurred? |
| Default Connector Label | Other Transition           |

#### Rule Contact\_Established\_Transition (Contact Established Transition)

|                 |                                                 |
|-----------------|-------------------------------------------------|
| Connector       | <a href="#">Set Contact Established Message</a> |
| Condition Logic | and                                             |

| Condition Id | Left Value Reference                   | Operator | Right Value                                                                           |
|--------------|----------------------------------------|----------|---------------------------------------------------------------------------------------|
| 1            | \$Record.Contact_Established__c        | Equal To |  |
| 2            | \$Record__Prior.Contact_Established__c | Equal To |  |

#### Rule Form\_Completed\_Transition (Form Completed Transition)

|                 |                                            |
|-----------------|--------------------------------------------|
|                 |                                            |
| Connector       | <a href="#">Set_Form_Completed_Message</a> |
| Condition Logic | and                                        |

| Condition Id | Left Value Reference                   | Operator | Right Value                         |
|--------------|----------------------------------------|----------|-------------------------------------|
| 1            | \$Record.Form_Completed_Date__c        | Is Null  | <input type="checkbox"/>            |
| 2            | \$Record__Prior.Form_Completed_Date__c | Is Null  | <input checked="" type="checkbox"/> |

**Is\_Segment\_Transition**

|                         |                        |
|-------------------------|------------------------|
|                         |                        |
| Type                    | Decision               |
| Label                   | Is Segment Transition? |
| Default Connector Label | No Transition          |

**Rule Transition\_Detected (Transition Detected)**

|                 |                                           |
|-----------------|-------------------------------------------|
